KNUDSON SCHOOL OF LAW

<u>Call for Papers: *South Dakota Law Review* Cybersecurity Agricultural Law Symposium</u>

The *South Dakota Law Review* seeks article proposals, speakers, and panel participants for a symposium on issues related to cybersecurity and agricultural law. The Cybersecurity Agricultural Law Symposium is held jointly with Dakota State and South Dakota State Universities with support from the South Dakota Legislature. The symposium will take place at **in Sioux Falls, South Dakota in late March or early April of 2023**. The final venue and date of the symposium will be determined at a later date.

Abstracts of 300-500 words are due **August 31, 2022**.

The symposium will focus on issues at the nexus of cybersecurity and agricultural law in South Dakota and the United States at large. Over the past several decades, rapid and extensive changes in technology and agribusiness have opened new opportunities and challenges to farmers and stakeholders surrounding cybersecurity and agriculture. The editors seek articles that address one or more of the following topics, or other related topics:

1. Threats to ag data privacy and confidentiality
2. Threats to ag data integrity
3. Threats to data availability and/or disruption to data and ag communication networks
4. Threats to control of ag communication networks
5. Any other topic related to cybersecurity and agricultural law

The editors actively seek diverse viewpoints and diverse scholarly approaches. Although the symposium is not a historical or comparative project, the editors welcome articles with historical or comparative features.

The **Call for Papers** opens today with abstracts due on **Wednesday, August 31, 2022.** Please send abstracts to Jaquilyn.WaddellBoie@coyotes.usd.edu. Selected writers will be notified by **Friday, September 16, 2022.** Finished articles will be due **Friday, December 16, 2022**. Our editors will work with you over the winter 2022-23 to prepare your work for publication. The symposium volume will be published and released in the spring of 2023.
